

MAGNUM MTP6000D DRI-PRIME PUMP

**THE BACKBONE OF THE TEMPORARY
PORTABLE PUMPING INDUSTRY.**

- ✓ **DEWATERING**
- ✓ **FLOODING**
- ✓ **DISASTER RECOVERY**
- ✓ **ENVIRONMENTAL
REMEDICATION**
- ✓ **TEMPORARY FIRE
PROTECTION**

The Magnum dry-priming centrifugal pump is capable of handling up to 3 inch diameter solids and flow capacities up to 3050 gpm. These models also offer a 110 gallon fuel capacity for more than 24 hours run time. The Venturi priming system is simple and reliable offering continuous priming at reduced operating and maintenance costs.

Mounted on a highway trailer, MTP6000D is the most maneuverable and versatile portable pumping system available, making it a favorite of pipeline and utility construction, mine and quarry dewatering, contractors, municipalities, industry and environmental companies across the country. Magnum Pumps offer an unparalleled line of extreme pumps for the world's toughest assignments.
